File Embedding Example

All files in `template-dir` are bundled into the binary at compile time. These files can be accessed from `.typ` templates using Typst's built-in functions like `image()`, `csv()`, `json()`, `toml()`, and `read()`.

Image File

CSV File

Language	Year	Paradigm
Rust	2010	Systems
Python	1991	General-purpose
Typst	2023	Typesetting
JavaScript	1995	Multi-paradigm

JSON File

Title	Author	Year	Genres
The Little Prince	Antoine de Saint-Exupéry	1943	Fiction, Fantasy
Romeo and Juliet	William Shakespeare	1597	Drama, Tragedy

TOML File

title	My Report
author	Jane Doe
date	1999-12-31
font-size	12
line-spacing	1.5

Text File

Hello from an embedded text file!

This content is read at compile time
and bundled directly into the binary.
